

Downtown Sidney Banner Program Policy Statement

The Downtown Banner Program is managed by Sidney Alive. Sidney Alive approves banners for placement on selected poles throughout Historic Downtown Sidney. The goal of the banner program is to:

- Add color & vitality to the Downtown Sidney streetscapes;
- Assist in promotion of cultural and civic events, as well as community pride.

To be eligible, participants must represent or promote not-for-profit cultural or civic events/activities of significant general public interest and community pride. Banners promoting commercial enterprises or political candidates/parties/issues will not be permitted. Sidney Alive has sole discretion to make all decisions regarding eligibility.

Participants must submit an application each year to reserve a time period of display. If a new banner is being made, a design proposal must be submitted for review with the application. New banners must adhere to the specifications detailed later in this statement. After banners and display periods have been approved, a general contract will be signed between Sidney Alive and a representative of the participating organization. Display periods will be assigned on a first-come, first serve basis. Banners will be scheduled for no more than 30 days. There may be instances when longer displays are necessary and will be approved on a case-by-case basis.

There are 8 banner poles on the courthouse block and 18 banner poles on the surrounding city blocks for a total of 26 banner poles. Banners may be hung on the courthouse block only, surrounding blocks only or on all, depending on the schedule.

At this time, the State Route 47 corridor banners are not available for display.

Scheduling is also based on the following priorities:

- 1) Banners produced that publicize downtown events/community pride & have first priority.
- 2) Banners promoting public/community events or activities held downtown have second priority.
- 3) Banners promoting city and county events, or activities open to the public have third priority.

Banner Construction Specifications

Banners must meet the following criteria and be produced by a local company approved by Sidney Alive.

- **Total Height:** 35.5 inches
- **Width:** 23.75 inches
- **Top Hem:** 5 inches
